CLAREMONT HOTEL DOUGLAS, ISLE OF MAN

Sleepwell Hotels, based on the Isle of Man, has undertaken a £1m refurbishment programme to revamp 20 executive rooms at its 56-bedroom Claremont hotel in Douglas. The hotel sits close to the Isle of Man off-shore finance centre and as it caters primarily for company executives, it has aimed for a modern European feel attractive to corporate clients, with direct links to EU capital cities such as London, Paris, Berlin and Geneva.

It has a modern, almost "Bauhaus" feel. The aim was to provide a hi-tech yet practical and efficient use of space for business clients. The room features multiple charger points, broadband Wi-Fi and cabled internet, hands-free phone, Blu-ray DVD, flat-screen TV, and complimentary business and sport channels.

First phase completed January 2011
